

Organic Cashews

CSHPV501b

We've found that the best cashews grow in the fertile soil and warm climate of the tropics. The cashews that grow here are creamy, sweet and packed with vitamins, minerals and of course, flavor.

Vietnam is home to our cashews, providing the perfect environment for growing - where the soil is full of nutrients, and the climates are warm and moist.

Our cashews are a great source of beneficial fats and minerals like Magnesium, Copper, Iron, Zinc and Vitamin K.
